INTRODUCTION

This annual report of licensee activity under the California Finance Lenders Law (CFLL) is a composite of annual reports submitted by lender and broker licensees for calendar year 2014. Licensees' annual reports were submitted in accordance with Financial Code sections 22159(a) and 22160, which state:

22159. (a) Each finance lender and broker licensee shall file an annual report with the commissioner, on or before the 15th day of March, giving the relevant information that the commissioner reasonably requires concerning the business and operations conducted by the licensee within the state during the preceding calendar year for each licensed place of business. The individual annual reports filed pursuant to this section shall be made available to the public for inspection except, upon request in the annual report to the commissioner, the balance sheet contained in the annual report of a sole proprietor or any other nonpublicly traded persons. "Nonpublicly traded person" for purposes of this section means persons with securities owned by 35 or fewer individuals. The report shall be made under oath and in the form prescribed by the commissioner.

22160. The commissioner shall make and file annually with the Department of Business Oversight as a public record a composite of the annual reports and any comments on the reports that he or she deems to be in the public interest.

The unaudited data submitted by licensees was submitted in a format prescribed by the Department of Business Oversight (DBO).

This report and reports for prior years can be found on the DBO's website at http://www.dbo.ca.gov/Licensees/Finance_Lenders/Publications.asp.

2014 DATA HIGHLIGHTS

The number of all consumer loans in 2014 increased 22 percent from 2013, to 1,108,345 from 908,221. The aggregate principal amount, by contrast, decreased 42 percent over the same period, to \$22.9 billion from \$39.5 billion. Other highlights:

- The number of consumer loans valued under \$2,500 that were originated in 2014 increased 23.3 percent from 2013, to 361,405 from 293,089. The aggregate principal amount of such loans increased 21.1 percent over the same period, to \$264.9 million from \$218.8 million.
- Both the total number and principal amount of auto title-secured loans increased from 2013 to 2014. The number increased 16.2 percent, to 106,373 from 91,505, and the aggregate principal went up 14.1 percent, to \$381.9 million from \$334.8 million.
- The number of unsecured consumer loans valued from \$5,000 to \$9,999 increased 95.6 percent from 2013 to 2014 (39,838 to 77,930). The aggregate principal amount on such loans rose 89.6 percent over the same period (\$250.2 million to \$474.4 million).
- The number of real property-secured consumer loans decreased by 58 percent from 2013 to 2014, and the principal amount borrowed decreased by 54 percent over the same period.

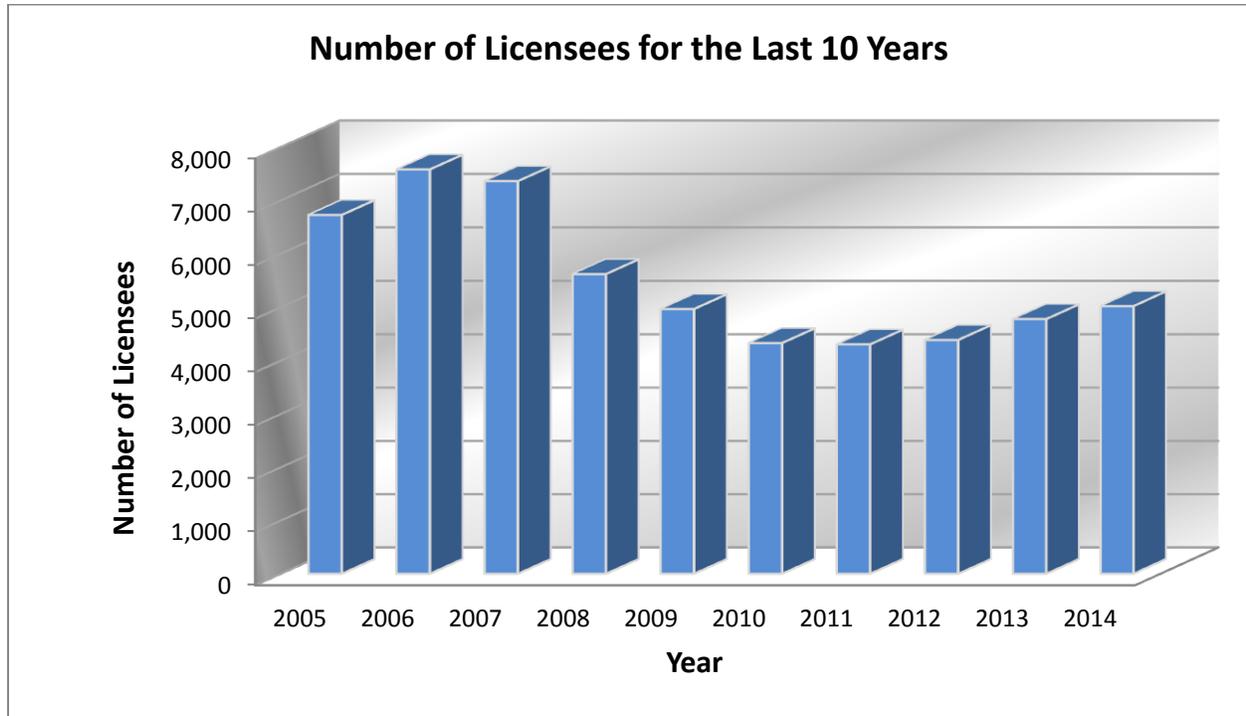

A new Schedule of Loan Activity exhibit (Exhibit I) has been added to the report that provides information on consumer loan default rates by security type and size of loan. Some highlights of that data, which reflects licensees' outstanding loans as of December 31, 2014:

- For all consumer loans, the number of past-due loans on which lenders had stopped expecting payment and counted as losses – called charge-offs – represented 0.29 percent of total outstanding loans (164,054 of 55,668,750).
- By dollar amount, the highest charge-off rate came in the \$5,000 to \$9,999 range, where the ratio was 7.4 percent.
- The charge-off rate for unsecured consumer loans was 5.5 percent (111,010 of 2,028,956). The ratio for auto title loans was 4.5 percent (17,633 of 394,510).

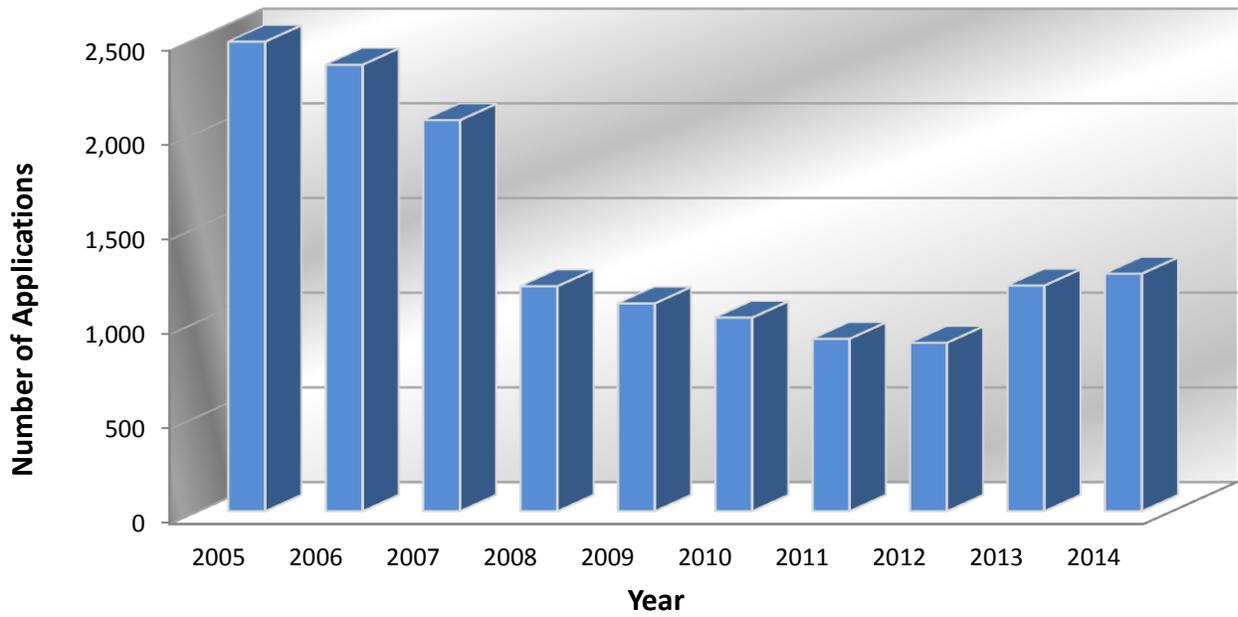

HISTORICAL DATA – Licensees and License Applications

The table and two charts following show the number of CFLL licensees (including branches) at the end of each calendar year, and the number of license applications the DBO received each year for the last 10 years. Both have steadily increased since 2012.
