REGIONAL DATA

The median salary in Region II (Bay Area) was the highest in all three officer categories. This was followed by Region III (LA/Orange) in second place. Region IV (So. Calif.) took third place in the CEO category and fourth in the CFO category, while Region I (No. Calif.) was in third place in the CFO category and fourth place in the CEO category. In the SLO category, Region I and Region IV were tied for third place.

Possible factors that influence change are increased reliance on non-cash benefits, local and national economic conditions, position turnover, different job duties and changes in the makeup of the asset size group populations.
